Hit control and click on any of the links above to jump to a section of your choice
GETTING STARTED

**New User – Request a Login to JobX**

1. Open your browser (Internet Explorer preferred) and copy and paste the JobX main address:
   

2. Click on Off-Campus CSWS Employers.

3. Click on Request a Login.

4. Fill out all required information and click submit.

5. Your request will be reviewed by the SEO and you will be notified upon approval.

**Returning User – Login to JobX**

1. Open your browser (Internet Explorer preferred) and copy and paste the JobX main address:
   

2. Click on Off-Campus CSWS Employers.

3. Click on Job Control Panel and enter the E-Mail address and password you used when you requested a login.

4. Click login.

**Manage & Edit your Jobs(s)**

1. Follow the login process. Upon logging in, you will be directed to the Job Control Panel where you will see the Job Status Filter.

2. To view your listed positions available for students to search on JobX, check View Listed Jobs. Hover your mouse over the icons to the left of each check box to see what each status description means. (You will spend most of your time viewing your listed jobs, followed by those in review mode which are jobs that are not viewable by students but you may still hire into. Also, your break positions will be listed in review mode until break registration is available). For more info on Job Status, please view the section Manage Job Status below or the Vassar College Employer User Guide.

3. To view the position information, click on the name of the position. You will be able to manage the job here and/or edit the job. Any edits to the job profile are sent to the SEO Administrator for approval.

4. **IMPORTANT: FOR ANY EDITS TO YOUR JOB(S), INDICATE THE ITEM(S) YOU'VE CHANGED/UPDATED UNDER JUSTIFICATION NOTES.

5. To edit the position, click on Edit This Job. Here you may update the various features of the job profile.
   a. If you wish to increase the available openings or change the base pay rate for a job funded by the SEO, include an explanation in the *Justification Notes*. This
particular request must be reviewed by the SEO Task Force. You will be notified by email upon approval/denial.

b. To edit the budget info for a job that is paid out of a grant or department budget, you can edit these fields here.

c. You can make any changes to the job description/requirements.

***Please note if you edit your job and it is not in the Listed Status, after making edits and filling in the justification notes, you must put the job into Listed Status.

6. Your changes to the job application will be sent to the Admin for approval.

**Edit Student Job Application**

1. To edit the student job application form students must submit to apply for the position, first move the job to review status if it is not already (see Manage Job Status below).
2. Edit the application.
3. Select **Click here when finished.**
4. Click **Return to Manage Job Page.**
5. Change the status to **Listed** and you will see the screen titled **List this job on the site.** Select from the drop down box **List immediately upon approval.**
6. Click **Save Changes.**
7. Your changes to the job application will be sent to the Admin for approval.

**Manage Job Status**

1. Follow the log in process. Upon logging in, you will be directed to the Job Control Panel.
2. In the Job Control Panel, you will see the Job Status Filter. To show all jobs regardless of status, check all of the boxes.
3. To learn what each status means, hover the mouse over the icon to the left of the box.

To summarize:

a. **Listed Jobs** will show your positions that can be viewed and searched by students. Students can submit a job application in this status.

b. **Review Mode** cannot be viewed or searched by students, and students cannot submit a job application in this status. However, if there are still vacancies left, you can place students into the position. This status is mainly for positions for which an employer does not wish to have students view; positions that may not be needed for a certain time during the year; positions that have a large number of applicants and you wish to stop receiving more applications. Positions that become filled will automatically be moved to this status.

c. **Storage Mode** is no longer used

d. **Jobs Pending Approval** is the location for any job that has had a change request submitted with it. Examples include a change in any part of the job template/description, a new job request, a change in job status etc.
4. To change a job status, click on the job title where you will be taken to the screen titled Manage Job.
5. In the box titled Update Status, you can click the status you wish to switch the job to, and you will be taken to the page titled Update Job Status.
6. To continue with your selection, click the button Send to ___ Mode. To choose a different status, click on [Click here to choose a different status].
7. You have the option to list the job on the site at a future date or right now, to have JobMail automatically sent to students who are interested and/or the length of time you’d like the job listed.
8. All status change requests are submitted to the SEO administration and must be approved by the SEO administration.
CREATING NEW JOBS AND MAKING JOB CHANGES IN JOBX

Posting a new job is a four-step process. First you complete a Create a New Job form, once the job is approved and entered by admin in Workday, access JobX and complete finishing the job posting, edit the job’s application if desired (based on Vassar’s standard application), and finally either list or put the job in review.

Create a New On-Campus

*Choose this job type for a new hourly position to be funded by the SEO or your department/grant during the academic year*

1. Follow the JobX login process and complete the correct form under Additional Forms and Resources

Choose “Create A New Job” *Please send an email for the agency’s director to stuemp@vassar.edu with a reason why you are requesting a new position for an approval.

For Grant and endowment jobs: Choose “Gifts, Grants and Grant Internal Award Form.”

**Ensure all fields are completed**

Click “Submit” and the request form will come to student employment. If approved, the newly requested position will be created in Workday and you will be notified in your Vassar email. Please allow an hour for the new job to integrate over to JobX where you will finish competing the job set up.

2. To complete on JobX - Log in to JobX
   In your Control Panel - Click on Add a New Job button
   Choose “On Campus Job” or “On Campus Break Job” (depending on time) from the job type drop down menu - then click "Go to next step"

   Please Choose a Job Type
   [On Campus Jobs] [Go to next step]

Select the “Workday title” – from the drop down menu, click/choose the job title you are adding
Complete all information for the job that has the red asterisks.
Hours per week for academic year positions are 8-10 and break 37.5
**Hourly rates for the Academic Year jobs are $10.00 per hour.** For summer break jobs, any increase has to be approved prior to this step

Click SUBMIT

3. Update or Approve the job application. Click Submit/Done
The finished job will now come to Student Employment to approve.
4. Upon approval, you will see the position listed in your Job Control Panel under the requested Job Status. If this is a job you do not want students to see on the job board, once you are notified of the job approval move the job into Review Status.

**Create Additional Openings**

1. Follow step 1 for Creating a New Job, however choose the Create Additional Openings(s) for an Existing Job Form in JobX under Additional Forms and Resources.

2. If approved, once updated in Workday, the opening will appear in JobX, allow 1 hour.

**Change Job Details (Budget info, Job Title or Supervisory Organization)**

If it is determined that your agency needs to make these changes, complete the Change Job Details form on Job X under Additional Forms and Resources. *Changing job titles should only be done when absolutely necessary.*

**Temporarily Close or Permanently Close a Position**

Both of these forms are listed on JobX under Additional Forms and Resources

a. Temporarily Close a Student Position – This form is for temporary freezing a student position in order to reallocate the openings to another area of the department or college. If you don’t need to close the opening but do not want to hire into the job, simply move the job to “Review” mode in JobX.

b. Permanently Close Student Position – This form is to permanently close a student position that will not be used again in the future. If there is a possibility that you may need this position in the future, do not complete this form but rather move your position to Review status and leave it vacant. If you are temporarily closing a position to reallocate the opening to another area, complete the temporarily Close Student Position form.
Managing and Hiring Applicants

* After making a hire in JobX, allow 24 hours for the student/hire to appear in Workday. It takes 24 hours for the JobX/Workday integration

* Students hired in JobX with a future start date (later than today's date) will not appear in Workday until their actual start date.

* Terminating: After submitting a student termination form in JobX, allow 24-48 hours for SEO to update in Workday and the integration from Workday to JobX for the opening to become available in JobX for you to hire another student. Check JobX to ensure the job is in “listed” for students to apply or “review” mode if you don’t want it listed.

View On-Line Applicants

1. Follow the log in process. Upon logging in, you will be directed to the Job Control Panel.
2. To locate the job to hire a student, click the box next to View Listed Jobs. If your job is in Review Mode, you will need to click that box. If unsure, select all boxes.
3. To view job applications, click on the link that says “X” Applicants (“X” New). Here you can Preview, View or Delete an application. You can also view a resume if a student chose to upload one.
   a. If you Preview an application, the status will still show New! on the left. If you View the application, New! will no longer show.
   b. To note applications that you like, you can flag the application by clicking the flag icon.
   c. If you delete an application, you will no longer have access to the student's application in the future. You will only have record of the student info in your hiring archive; you will not be able to access a job application once it has been deleted.
4. If you return to the application list, by clicking Send Greeting Email(s) or Send Rejection Email(s) you have the option of contacting the student(s) with a click of a button or personalize your own messages.
5. If you have received a large number of applications and wish to no longer have the job visible by students, you can move the job into Review mode (see Manage Job Status instructions). The job is then de-listed from the job search site, however you can still hire students into the job.
**Hire Validation Process**

The hire validation process occurs during the on-line hire process; however you should become familiar with this process prior to hiring any students.

1. During the hire, upon entering a student's name followed by email address, JobX validates several different pieces of information:
   a. **Award List (CWS)** – If the student is NOT on this list, the student will have a red X and does not have a work study award; students who do not have work study cannot be hired into an off-campus CSWS job**. Otherwise, the student will have a green check mark if they have a work study award.
      **The exception to this is if a student is a returning CSWS student, they can be rehired regardless of CWS status. If the student is a new CSWS student, they must have a CWS award in order to be hired. In order to hire a returning CSWS worker without a CWS award, please email stuemp@vassar.edu with the student name, ID and email and we can process the request manually for you.**
   b. **I-9 List** – The student must be on this list in order to be legally hired in JobX and begin work. If the student is not on this list, contact the student and instruct him/her to come to the SEO to complete the form. Students who have not completed the I-9 form cannot be hired. *It is against the law for a student to begin work prior to completing the I-9 form.*
   c. “**Warning – Student has already been hired in another job for the same period**”. While the system allows you to proceed with the hire, we request that you contact the student first and ask which position are they going to accept. Students may apply and interview for multiple jobs and get hired into another job. In most cases we don’t allow students to work more than one position. The request would need to go through the SEO for a student to have more than one job. The SEO will be monitoring this as well.
   d. **“Email Entered does not Match Student Name”**. If the name of the student and/or the email address is typed incorrectly, the validation will not work and you will be unable to proceed. Please verify this is the correct name and email of the student.

**Hire an On-Line Applicant into an Off-Campus CSWS Job**

**Students are to be hired prior to beginning any work**

1. Follow the log in process. Upon logging in, you will be directed to the Job Control Panel. View your jobs in your control panel.
2. To hire a student who has applied for the position, click on **Hire** next to the position and you will see the student’s name selected.
3. Click **Go to Step 2**, then click Check Email to validate the student information. If the name or email is spelled incorrectly, the validation will not be successful. Double check.
the student email by going to the student directory on Ask Banner: https://banweb1.vassar.edu/directory/studir.html.
4. The Validation Lookup Results will inform you if the student can be hired (see Hire Validation Process).
5. If the student passes validation, you will be taken to Step 2: Fill Out Hire Info.
6. *Important: If hiring a student after the defaulted date in Estimated Employment Start Date, update this date to the current date. If hiring ahead of time, prior to the defaulted date, do not update the date and leave the default. (Essentially, this date should be the date the student actually begins work).

7. Here you may check the Re-Hire button if you know this is a rehire. If unsure, select hire. No other fields need to be updated.
8. Click Submit Request at the bottom of the page.
9. Email Hire Approver Details: An email will be pre-populated with the hire details to send to both the student and employer. Here you can add any text and/or additional recipients. Click Email Hire Approval. *Note New York State law requires a student employee to be notified of earnings at the beginning of a new job assignment.

**Hire a Walk-In Applicant into an Off-Campus CSWS Job**

1. Follow the log in process. Upon logging in, you will be directed to the Job Control Panel. View your jobs in your control panel.
2. To hire a walk-in student who has not applied online, click on the job in your Job Control Panel.
3. Under Manage Job you can click Hire a student. You will be taken to the same screen as you would if you were to be hiring an on-line applicant. Here you can enter the student’s first and last name.
4. Enter the email address in order to validate the student’s status. The Validation Lookup Results will inform you if the student can be hired (see Hire Validation Process). Double check the student email by going to the student directory on Ask Banner: https://banweb1.vassar.edu/directory/studir.html.
   a. **Important: If you are hiring multiple students into the same job, you can enter as many names as there are vacancies at this step in the process.**
b. Click *Go to Step 2*, click *Check Email(s)* to validate the student information. If the name or email is spelled incorrectly, the validation will not be successful. The Validation Lookup Results will inform you if the student is on the I-9 and W-4 Lists.

c. Ex. You are hiring both John Smith and Jane Smith into the same job which has two vacancies. Enter both John Smith and Jane Smith on the *Hire Students* page; when you reach Step 2: Fill Out Hire Info, leave the hire info and submit request for the first student, then the second student’s hire info should pop up for you to repeat the same process.

5. Click *Submit Request* at the bottom of the page.
6. Make any desired edits to the email and then click *Email Hire Approval*.

**Terminate a Student**

1. On the JobX Home Page, click on *Additional Forms and Resources*.
2. Click on *Student Termination Request*.
3. Complete the form and click *Send Message*.
4. **Please allow 24-48 hours** for the termination to be processed by the SEO and a vacancy to become available in JobX (integration form Workday to JobX is an overnight process)
5. Check JobX for the opening and ensure the job is in “listed” mode for students to apply or “review” mode if you don’t want it listed. *(Openings will come over in JobX to the mode they were previously in prior to terminating)*

**Manage your Student Roster**

1. To manage your student roster, employers will need to keep track. Our recommendation is to set up an excel spreadsheet with the pertinent information and update accordingly. The SEO has developed a template to use.

**Tab 1: Active Roster**

<table>
<thead>
<tr>
<th>A</th>
<th>B</th>
<th>C</th>
<th>D</th>
<th>E</th>
<th>F</th>
<th>G</th>
<th>H</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>

<td>English Language Literacy Tutor</td>
<td>Doe</td>
<td>John</td>
<td>999XXXXXX</td>
<td><a href="mailto:Jode@vassar.edu">Jode@vassar.edu</a></td>
</tr>
</tbody>
</table>

2. Note that JobX does not track terminations – so if you have submitted a termination for a student, this will not be visible in your hiring archive.

3. You can also contact student employment and ask for a roster, please provide position name and V#. Email: stuemp@vassar.edu. If you have any questions during the semester please contact us, Student Financial Services.
Paying your Student Employees

All Vassar students will record their time on web time sheets and submit for approval. Off-campus CSWS employers have various options for time sheet approvals. There are limited agencies that are able to approve student web time sheets through Banner, and while they are considered off-campus CSWS agencies, they are to follow the on-campus time sheet approval process. For those that do not have web time sheet access, please follow these guidelines.

Payroll is biweekly and runs from Monday through Sunday. Please refer to the Student Payroll Calendar for the exact dates we will need the Vassar Student Time logs. This is usually every other Monday, by 10AM. Email/Fax the student time log to stuemp@vassar.edu each Friday by 5PM or Monday by 10AM on the payroll due date. Reminders are sent out prior to the deadline and upon receiving the time logs, someone from our office is then able to act as the designated time sheet approver for student’s web time sheets. For a CSWS Student Time Log template and instructions click here. If you would like us to send the spreadsheet in an Excel format, please let us know.
